Comfort & Orthotic Friendly Footwear 2015

Welcome to the second edition of our seasonal footwear newsletter. After a late summer, Autumn has arrived rather quickly! Just in time, we have some gorgeous, comfy, warm, work and casual shoes in different widths, available at our growing 'in clinic' store.

Most have a soft, contoured insole which may be removed to take your orthotic, if required.

Brands include, **TAOS, KLOUDS, ARCOPEDICO, BORN and PROPET**. Most footwear is for women (as they have the most trouble finding attractive, yet comfortable shoes!) We do however, stock a small choice of men's casual shoes to suit wider feet and orthotics.

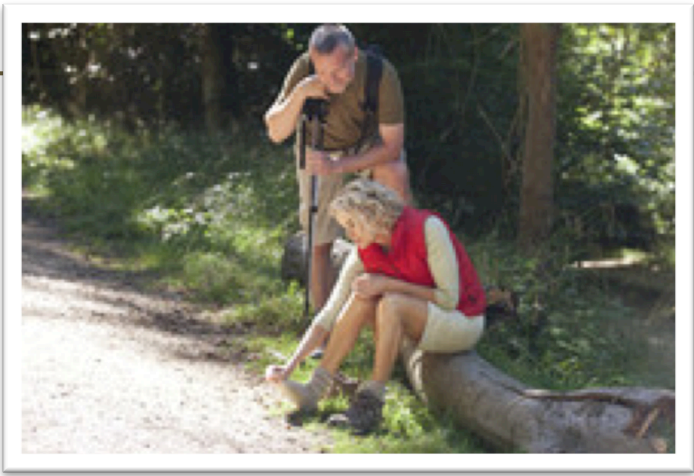

For those who travel to warmer climates for the winter, remember that we keep our Revere sandals and orthotic thongs for men, women and children, in stock, all year around!
